Subject index*

A

Abstracts

Abstracts. 1994;22:100-26

Acinetobacter calcoaceticus anitratus

Acinetobacter calcoaceticus anitratus outbreak in the intensive care unit traced to a peak flow meter (Ahmed et al). 1994;22:319-21 (Brief rep.)

Acquired immunodeficiency syndrome

Compliance with universal precautions: *Getting to Yes* (Valenti). 1994;22:177-8 (AIDS: problem solving in infection control)

Correlates of attitudes concerning human immunodeficiency virus and acquired immunodeficiency syndrome among hospital workers (Gershon et al). 1994;22:293-9

Infection control, human immunodeficiency virus, and home health care: I. Infection risk to the patient (Valenti). 1994;22:371-2 (AIDS: problem solving in infection control)

Nosocomial infections in the human immunodeficiency virus-infected patient: a two-year survey (Goetz et al). 1994;22:334-9

Aerosols

Evaluation of single-use masks and respirators for protection of health care workers against mycobacterial aerosols (Chen et al). 1994;22:65-74

AIDS: problem solving in infection control

AIDS: problem solving in infection control. 1994;22:177-8, 371-2

American Society for Testing and Materials

The new American Society for Testing and Materials tests: all that glitters is not gold (Belkin). 1994;22:172-6 (Commentary)

Antibiotics

Antibiotic resistance: Will infection control meet the challenge? (Burgert and Burke). 1994;22:193-4 (Guest editorial)

Arthritis, septic

Septic arthritis after arthroscopy: the contributing roles of intraarticular steroids and environmental factors (Armstrong and Bolding). 1994;22:16-8 (Brief rep.)

Arthroscopy

Septic arthritis after arthroscopy: the contributing roles of intraarticular steroids and environmental factors (Armstrong and Bolding). 1994;22:16-8 (Brief rep.)

Aspergillosis

Guideline for prevention of nosocomial pneumonia (Tablan et al). 1994;22:247-92 (Special comm.)

Association for Professionals in Infection Control and Epidemiology, Inc.

APIC guideline for infection prevention and control in flexible endoscopy (Martin et al). 1994;22:19-38

Attitude; see Knowledge, attitude, practice

Automated handwashing

Handwashing machines, handwashing compliance, and potential for cross-contamination (Wurtz et al). 1994;22:228-30 (Brief rep.)

Use of image analysis to measure handwashing effectiveness (Turner et al). 1994;22:218-23

B

Bacillus

Feasibility of a combined carrier test for disinfectants: studies with a mixture of five types of microorganisms (Best et al). 1994;22:152-62

Bacteremia; see Septicemia

Barrier protection

Barrier protection with examination gloves: double versus single (Korniewicz et al). 1994;22:12-5

Evaluation of single-use masks and respirators for protection of health care workers against mycobacterial aerosols (Chen et al). 1994;22:65-74

Mycobacterium tuberculosis transmission rates in a sanatorium: implications for new preventive guidelines (Jernigan et al). 1994;22:329-33

The new American Society for Testing and Materials tests: all that glitters is not gold (Belkin). 1994;22:172-6 (Commentary)

Reality of glove use and handwashing in a community hospital (Lund et al). 1994;22:352-7

Book reviews

Book reviews. 1994;22:61-2, 96-7, 375-6

Brief reports

Brief reports. 1994;22:16-8, 224-35, 319-21, 367-70

Burns

Control of methicillin-resistant *Staphylococcus aureus* in a pediatric burn unit (Sheridan et al). 1994;22:340-5

C

Carpeting

Hospital carpeting and epidemiology of *Clostridium difficile* (Skoutelis et al). 1994;22:212-7

Central intravenous catheters

Community-acquired bacteremias from tunneled central intravenous lines: results from studies of a single vendor (Brown et al). 1994;22:149-51

Infection control, human immunodeficiency virus, and home health care: I. Infection risk to the patient (Valenti). 1994;22:371-2 (AIDS: problem solving in infection control)

Surveillance of intravenous catheter-related infections among home care clients (White and Ragland). 1994;22:231-5 (Brief rep.)

Child

Control of methicillin-resistant *Staphylococcus aureus* in a pediatric burn unit (Sheridan et al). 1994;22:340-5

Demand for isolation beds in a pediatric hospital (Langley et al). 1994;22:207-11

*February, pp. 1-64; April, 65-128; June, pp. 129-192; August, pp. 193-292; October, pp. 293-328; December, pp. 329-390.

Cleansers

- Comparative effectiveness of hand-cleansing agents for removing methicillin-resistant *Staphylococcus aureus* from experimentally contaminated fingertips (Huang et al). 1994;22:224-7 (Brief rep.)

Clostridium difficile

- Hospital carpeting and epidemiology of *Clostridium difficile* (Skoutelis et al). 1994;22:212-7

Commentaries

- Commentaries. 1994;22:39-46, 90-4, 172-6

Compliance

- Compliance with universal precautions: *Getting to Yes* (Valenti). 1994;22:177-8 (AIDS: problem solving in infection control)
- Compliance with universal precautions and needle handling and disposal practices among emergency department staff at two community hospitals (Henry et al). 1994;22:129-37
- Handwashing machines, handwashing compliance, and potential for cross-contamination (Wurtz et al). 1994;22:228-30 (Brief rep.)
- Lack of compliance with influenza immunization for caretakers of neonatal intensive care unit patients (Eisenfeld et al). 1994;22:307-11
- Reality of glove use and handwashing in a community hospital (Lund et al). 1994;22:352-7
- Variables influencing worker compliance with universal precautions in the emergency department (Williams et al). 1994;22:138-48

Computers

- Computer-assisted instruction (CAI): a time-saving, individualized teaching methodology (Lancaster and Willis). 1994;22:179-81 (Practice forum)

Correction

- Guideline for prevention of nosocomial pneumonia (Tablan et al) (1994;22:247-92). 1994;22:324, 351

Costs and cost analysis

- Application of cost-effectiveness methodology to the consideration of needlestick prevention technology (Laufer and Chiarello). 1994;22:75-82
- Interdisciplinary group approach to Occupational Safety and Health Administration standard: reductions in cost and duplication of effort (Canola et al). 1994;22:182-7 (Practice forum)

Creutzfeldt-Jakob syndrome

- Creutzfeldt-Jakob disease: recommendations for infection control (Steelman). 1994;22:312-8

D**Dental instruments**

- Sterilization of dental instruments and devices: an update (Goodman et al). 1994;22:90-4 (Commentary)

Disinfection

- Feasibility of a combined carrier test for disinfectants: studies with a mixture of five types of microorganisms (Best et al). 1994;22:152-62
- Standardizing glutaraldehyde use in a regional group of ten major medical centers (Nakahara et al). 1994;22:50-6 (Practice forum)

Disposable equipment

- Evaluation of single-use masks and respirators for protection of health care workers against mycobacterial aerosols (Chen et al). 1994;22:65-74

Disposal practices

- Compliance with universal precautions and needle handling and disposal practices among emergency department staff at two community hospitals (Henry et al). 1994;22:129-37

Drug resistance

- Antibiotic resistance: Will infection control meet the challenge? (Burgert and Burke). 1994;22:193-4 (Guest editorial)
- Colonization pattern of vancomycin-resistant *Enterococcus faecium* (Yamaguchi et al). 1994;22:202-6

E**Education**

- Computer-assisted instruction (CAI): a time-saving, individualized teaching methodology (Lancaster and Willis). 1994;22:179-81 (Practice forum)
- Infection control instruction and screening for students (Wurtz et al). 1994;22:322-4 (Practice forum)
- Interdisciplinary group approach to Occupational Safety and Health Administration standard: reductions in cost and duplication of effort (Canola et al). 1994;22:182-7 (Practice forum)
- Opinions, knowledge, and self-reported practices related to infection control among nursing personnel in long-term care settings (Alvaran et al). 1994;22:367-70 (Brief rep.)

Emergency medical services

- Compliance with universal precautions and needle handling and disposal practices among emergency department staff at two community hospitals (Henry et al). 1994;22:129-37
- Variables influencing worker compliance with universal precautions in the emergency department (Williams et al). 1994;22:138-48

Endoscopy

- APIC guideline for infection prevention and control in flexible endoscopy (Martin et al). 1994;22:19-38

Enterobacter

- Epidemiologic perspectives on *Enterobacter* for the infection control professional (Chow et al). 1994;22:195-201

Enterococcus faecium

- Colonization pattern of vancomycin-resistant *Enterococcus faecium* (Yamaguchi et al). 1994;22:202-6

Epidemics

- Epidemic gram-negative bacteremia in a neonatal intensive care unit in Guatemala (Pegues et al). 1994;22:163-71

Equipment contamination

- Acinetobacter calcoaceticus* outbreak in the intensive care unit traced to a peak flow meter (Ahmed et al). 1994;22:319-21 (Brief rep.)
- Colonization of mechanical ventilation bags during use (Gauthier and Long). 1994;22:358-66
- Septic arthritis after arthroscopy: the contributing roles of intraarticular steroids and environmental factors (Armstrong and Bolding). 1994;22:16-8 (Brief rep.)

F**Flexible endoscopy**

- APIC guideline for infection prevention and control in flexible endoscopy (Martin et al). 1994;22:19-38

Fluorescence

- Use of image analysis to measure handwashing effectiveness (Turner et al). 1994;22:218-23

G**Gloves**

- Barrier protection with examination gloves: double versus single (Korniewicz et al). 1994;22:12-5
Reality of glove use and handwashing in a community hospital (Lund et al). 1994;22:352-7

Glutaraldehyde

- Standardizing glutaraldehyde use in a regional group of ten major medical centers (Nakahara et al). 1994;22:50-6 (Practice forum)

Gram-negative bacteria

- Epidemic gram-negative bacteremia in a neonatal intensive care unit in Guatemala (Pegues et al). 1994;22:163-71

Guatemala

- Epidemic gram-negative bacteremia in a neonatal intensive care unit in Guatemala (Pegues et al). 1994;22:163-71

Guest editorial

- Guest editorial. 1994;22:193-4

Guidelines

- APIC guideline for infection prevention and control in flexible endoscopy (Martin et al). 1994;22:19-38

H**Hand**

- Colonization by *Staphylococcus* species resistant to methicillin or quinolone on hands of medical personnel in a skilled-nursing facility (Lee et al). 1994;22:346-51

Handwashing

- Comparative effectiveness of hand-cleansing agents for removing methicillin-resistant *Staphylococcus aureus* from experimentally contaminated fingertips (Huang et al). 1994;22:224-7 (Brief rep.)
Handwashing machines, handwashing compliance, and potential for cross-contamination (Wurtz et al). 1994;22:228-30 (Brief rep.)
Reality of glove use and handwashing in a community hospital (Lund et al). 1994;22:352-7
Use of image analysis to measure handwashing effectiveness (Turner et al). 1994;22:218-23

Head nurses

- Intraorganizational influence in the health care setting: a study of strategies preferred by head nurses and infection control practitioners (Goldrick et al). 1994;22:6-11

Hepatitis

- Sterilization of dental instruments and devices: an update (Goodman et al). 1994;22:90-4 (Commentary)

HIV

- Correlates of attitudes concerning human immunodeficiency virus and acquired immunodeficiency syndrome among hospital workers (Gershon et al). 1994;22:293-9
Infection control, human immunodeficiency virus, and home health care: I. Infection risk to the patient (Valenti). 1994;22:371-2 (AIDS: problem solving in infection control)

- Nosocomial infections in the human immunodeficiency virus-infected patient: a two-year survey (Goetz et al). 1994;22:334-9

- Sterilization of dental instruments and devices: an update (Goodman et al). 1994;22:90-4 (Commentary)

Home care

- Analysis of needlestick injuries to health care workers providing home care (Backinger and Koustenis). 1994;22:300-6
Community-acquired bacteremias from tunneled central intravenous lines: results from studies of a single vendor (Brown et al). 1994;22:149-51
Infection control, human immunodeficiency virus, and home health care: I. Infection risk to the patient (Valenti). 1994;22:371-2 (AIDS: problem solving in infection control)
Surveillance of intravenous catheter-related infections among home care clients (White and Ragland). 1994;22:231-5 (Brief rep.)

Hospitals

- Demand for isolation beds in a pediatric hospital (Langley et al). 1994;22:207-11
Hospital carpeting and epidemiology of *Clostridium difficile* (Skoutelis et al). 1994;22:212-7

I**Image analysis**

- Use of image analysis to measure handwashing effectiveness (Turner et al). 1994;22:218-23

Immunization

- Adult immunization practice: the new paradigm (Poland). 1994;22:39-41 (Commentary)
Lack of compliance with influenza immunization for caretakers of neonatal intensive care unit patients (Eisenfeld et al). 1994;22:307-11
Management advisory—health care delivery: immunization (American Hospital Association Technical Panel on Infections within Hospitals). 1994;22:42-6 (Commentary)
NCAI standards applauded (Duffy). 1994;22:95 (Letter)

Immunocompetence

- Nosocomial infections in the human immunodeficiency virus-infected patient: a two-year survey (Goetz et al). 1994;22:334-9

Infant, newborn

- Epidemic gram-negative bacteremia in a neonatal intensive care unit in Guatemala (Pegues et al). 1994;22:163-71
Lack of compliance with influenza immunization for caretakers of neonatal intensive care unit patients (Eisenfeld et al). 1994;22:307-11

Influencing behavior

- Intraorganizational influence in the health care setting: a study of strategies preferred by head nurses and infection control practitioners (Goldrick et al). 1994;22:6-11

Influenza

- Guideline for prevention of nosocomial pneumonia (Tablan et al). 1994;22:247-92 (Special comm.)
Lack of compliance with influenza immunization for caretakers of neonatal intensive care unit patients (Eisenfeld et al). 1994;22:307-11

Infusions, intravenous

Community-acquired bacteremias from tunneled central intravenous lines: results from studies of a single vendor (Brown et al). 1994;22:149-51

Surveillance of intravenous catheter-related infections among home care clients (White and Ragland). 1994;22:231-5 (Brief rep.)

Intensive care units

Acinetobacter calcoaceticus anitratus outbreak in the intensive care unit traced to a peak flow meter (Ahmed et al). 1994;22:319-21 (Brief rep.)

Epidemic gram-negative bacteremia in a neonatal intensive care unit in Guatemala (Pegues et al). 1994;22:163-71

Lack of compliance with influenza immunization for caretakers of neonatal intensive care unit patients (Eisenfeld et al). 1994;22:307-11

Severity of illness classification inside and outside the intensive care unit (Josephson) (Letter); (Salemi) (Reply). 1994;22:57

Interventional radiology; see Radiology**Intravenous catheters; see Central intravenous catheters****Isolation**

Demand for isolation beds in a pediatric hospital (Langley et al). 1994;22:207-11

Issues and challenges

Issues and challenges. 1994;22:63-4, 98-9, 191-2, 245-6, 327-8, 377-8

J**Joint Commission's "Agenda for Change"**

A community hospital's response to the Joint Commission's "Agenda for Change" (Cannata). 1994;22:47-9 (Practice forum)

K**Knowledge, attitude, practice**

Correlates of attitudes concerning human immunodeficiency virus and acquired immunodeficiency syndrome among hospital workers (Gershon et al). 1994;22:293-9

Opinions, knowledge, and self-reported practices related to infection control among nursing personnel in long-term care settings (Alvaran et al). 1994;22:367-70 (Brief rep.)

L**Latex**

Barrier protection with examination gloves: double versus single (Korniewicz et al). 1994;22:12-5

Legionnaires' disease

Guideline for prevention of nosocomial pneumonia (Tablan et al). 1994;22:247-92 (Special comm.)

Letters

NCAI standards applauded (Duffy). 1994;22:95
Severity of illness classification inside and outside the intensive care unit (Josephson) (Letter); (Salemi) (Reply). 1994;22:57

Literature reviews

Literature reviews. 1994;22:58-61, 188-90, 242-4, 325-6, 373-5

Long-term care

Assessment of infection control programs in Maryland

skilled-nursing long-term care facilities (Goldrick and Larson). 1994;22:83-9

Opinions, knowledge, and self-reported practices related to infection control among nursing personnel in long-term care settings (Alvaran et al). 1994;22:367-70 (Brief rep.)

M**Masks**

Evaluation of single-use masks and respirators for protection of health care workers against mycobacterial aerosols (Chen et al). 1994;22:65-74

Mycobacterium tuberculosis transmission rates in a sanatorium: implications for new preventive guidelines (Jernigan et al). 1994;22:329-33

Methicillin

Colonization by *Staphylococcus* species resistant to methicillin or quinolone on hands of medical personnel in a skilled-nursing facility (Lee et al). 1994;22:346-51

Comparative effectiveness of hand-cleansing agents for removing methicillin-resistant *Staphylococcus aureus* from experimentally contaminated fingertips (Huang et al). 1994;22:224-7 (Brief rep.)

Control of methicillin-resistant *Staphylococcus aureus* in a pediatric burn unit (Sheridan et al). 1994;22:340-5

Mycobacterium

Evaluation of single-use masks and respirators for protection of health care workers against mycobacterial aerosols (Chen et al). 1994;22:65-74

Mycobacterium bovis

Feasibility of a combined carrier test for disinfectants: studies with a mixture of five types of microorganisms (Best et al). 1994;22:152-62

Mycobacterium tuberculosis

Mycobacterium tuberculosis transmission rates in a sanatorium: implications for new preventive guidelines (Jernigan et al). 1994;22:329-33

Tuberculosis surveillance: lessons from a cluster of skin test conversions (Steimke et al). 1994;22:236-41 (Practice forum)

N**NCAI**

NCAI standards applauded (Duffy). 1994;22:95 (Letter)

Needles

Compliance with universal precautions and needle handling and disposal practices among emergency department staff at two community hospitals (Henry et al). 1994;22:129-37

Needlestick injuries

Analysis of needlestick injuries to health care workers providing home care (Backinger and Koustenis). 1994;22:300-6

Application of cost-effectiveness methodology to the consideration of needlestick prevention technology (Laufer and Chiarello). 1994;22:75-82

Neonate; see Infant, newborn**Nervous system diseases**

Creutzfeldt-Jakob disease: recommendations for infection control (Steelman). 1994;22:312-8

Nursing homes

Assessment of infection control programs in Maryland

skilled-nursing long-term care facilities (Goldrick and Larson). 1994;22:83-9

Colonization by *Staphylococcus* species resistant to methicillin or quinolone on hands of medical personnel in a skilled-nursing facility (Lee et al). 1994;22:346-51

Opinions, knowledge, and self-reported practices related to infection control among nursing personnel in long-term care settings (Alvaran et al). 1994;22:367-70 (Brief rep.)
